

Makarand Tighare

tighare.makarand@gmail.com | 9403241191 | Nagpur

Summary

AWS-certified cloud engineer proficient in Python and Java, with a proven track record of innovation demonstrated by hackathon wins and ICPC regional achievements.

Professional Experience

Intern

Principal Global Services, Pune (01/2025 - Present)

- Developed and maintained Power BI dashboards, providing real-time sales and inventory insights that improved data-driven decision-making. Built a React-based task manager application that streamlined project workflows and enhanced team collaboration.

Education

Bachelor Of Technology, Computer Technology

Yeshwantrao Chavan College of Engineering (12/2021 - 05/2025)

Location: Nagpur, GPA: 8.86/10.0

Skills

Technical Skills:

Python, SQL, Java, Git, AWS, JavaScript

Soft Skills:

Communication, Teamwork, Attention to Detail, Project Management

Projects

VidyaSangam

07/2024

Technologies: NextJS, Django

Led a team developing a mentor-mentee web application leveraging technologies including React, Node.js, and PostgreSQL. As Team Lead, I oversaw all phases of development, from requirements

gathering to deployment. Implemented LinkedIn integration for seamless user profile import and developed an auto-matching algorithm using machine learning techniques to optimize mentor-mentee pairings based on skills and interests. Designed and implemented a quiz generation module for mentees, contributing to a leaderboard feature that fostered engagement and tracked progress. Successfully addressed the challenge of scaling the matching algorithm to accommodate a growing user base, resulting in a 30% increase in successful mentor-mentee relationships within the first quarter.
